

## Online matching games

### **Animals, food, loan-words, flags**

In these games you will find 10 words in Hebrew and their associated pictures; 9 of the words are pronounced in Hebrew similarly to the way they are pronounced in English - only one name will be totally different.

After finding all 9 matches (Hebrew-word/picture), you will be able to match the last picture to its Hebrew word (or you may be lucky and find it sooner).
